

12-circuit distribution box pt

Overview

The ICT180S-12 DISTRIBUTION SERIES fuse-protected DC load distribution panel allows you to connect up to twelve DC loads to a single power source, thereby providing a flexible, cost effective approach to site DC power design. 81 ft)] for standard cable lengths. Wiring diagram shows both PNP and NPN wiring. Dimensions are shown in mm (in. Actual units. Check each product page for other buying options. Need help?

Transparent window: Recommended for outdoor use: UV protection according to the ISO 4892-2 standard, method A: 1000 h. Supplied in individual packaging. TH35x7,5 symmetrical rail in enclosures with one row of. Our integrated circuits and reference designs for automotive power distribution box (PDB) provide you with a total PDB or smart junction box system design including LDOs, CAN and LIN in-vehicle networking, limp home functionality and smart power switches. Application: CH series Load Centers have been designed for safe, reliable distribution and control of electrical power as service entrance equipment in residential, commercial and light industrial premises. 75 hours 1000 PCS
