

12-core fiber optic splitter

Overview

Our SM and double-clad fiber coupler offerings also include a selection of components ideal for OCT applications.

Key Takeaways

0mm Fiber Optic Fan-out Kit is a precision-designed solution that provides a safe and organized method to separate multi-core optical cables into individual fibers. Feature: 12 ports optical fiber distribution box is used for the fusion splicing, splitting, wiring transmission and other functions of the optical transmission terminal; It can effectively terminate, protect and manage the optical cable. This convenient, spliceless and cost-effective method employs a splitter. The 12 cores plastic fiber optic distribution box provides a protected connection point for the feeder cable and drop cable in FTTH and FTTx networks. It is ideal to be placed. Thorlabs offers a varied selection of single mode (SM), polarization-maintaining (PM), multimode (MM), and double-clad fiber couplers, as well as 1x8 and 1x16 SM PLC splitters; 1x4, 1x8, and 1x16 PM PLC splitters; wideband multimode circulators; RGB combiners; and WDMs. It is. FS PLC Fiber Optic Splitters, Bare/Blockless/ABS/LGX Splitter/Rack Mount Types, support 1xN light distribution, with low IL and PDL for high-reliability transmission. Deploying compact FS PLC Splitters to simplify your networks, perfectly fits your PON, EPON, FTTX, etc.
