

Bangladesh JXF Distribution Box

Overview

The JXF distribution box is suitable for three-phase three-wire, three-phase four-wire, and three-phase five-wire systems with a frequency of 50 Hz and a voltage of 500 V or less, and a load current not exceeding 250 A. It provides control and earth-leakage protection for the power distribution. Note: The indoor concealed box can be customized. To order such indoor box, a letter "R" is specified when ordering; to order the concealed box sized 250 x 200 x 140, the order number is JXF252014R. The enclosure is constructed from. (JXF indoor/JFF outdoor) enclosure box is designed to be assembled into the distributing box with various control functions according to the type of components, specifications and quantity. The structure is so tight that can be very perfect. It's made of cold-rolled steel board or stainless alloy.
