

Compensation Standards for Land Acquisition for Fiber Optic Cable Laying

Overview

Legislation such as the Land Acquisition Law, along with related statutory instruments, sets out specific provisions on who qualifies for compensation and how it should be calculated. The national fixed line wayleave framework for landowners and infrastructure providers came. Compulsory acquisition is the power of government to acquire private rights in land for a public purpose, without the willing consent of its owner or occupant (Keith, 2008). These laws ensure a structured approach to land requisition, emphasizing fairness and transparency. The European Bank for Reconstruction and Development (EBRD) is considering providing financing to Macedonian Transmission System Operator (MEPSO) for the design, construction, and operation of a 400kV overhead transmission line from Bitola to the Macedonian / Albanian border.
