

Concealed electrical box dimensions 3 rows

Overview

Standard electrical box dimensions for European concealed wiring systems are typically 80mm in diameter and 55mm in depth, complying with EN 60670 standards to ensure compatibility and safe installation across EU countries. These are available in different modules, dimensions, and sizes depending on the requirements of the application as well as in both plastic and metal variants. Concealed Boxes are also commonly known as modular boxes, metal boxes, mounting boxes etc. Multi-gang boxes allow multiple switches or outlets in one location. Tip: Depth is.
