

Custom-made seismic bracing for cable trays in New Zealand

Overview

We design, supply, and install seismic bracing, isolation systems, and anchoring solutions for racks, containment, cable trays, and all critical infrastructure—minimising the risk of damage and downtime during seismic events. At Level Electrical & Air Conditioning, we provide complete seismic restraint solutions for electrical and HVAC plant across commercial, industrial, education, healthcare, and government facilities throughout New Zealand. Lock Global's seismic bracing and suspension systems. Contact us today to discover more about Vent Supply's Seismic Cable. Combining push-fit technology with a one-step lock to create a fast and secure method to anchor or brace structures, the Lockable Plus is a simple way to quickly secure a catenary span and is easily installed in under one minute. The Gripple New Zealand product range is perfectly suited for a range. Cable or wire bracing and suspension offers an alternative to solid bracing and supports - so you can select the solution that best meets the unique needs of your project. Cable systems can be very cost-effective. Based in New Zealand, we supply to local and global distributors.

SEISMIC CABLE BRACING

Features and Benefit Alternative to solid bracing. Easy to transport and install. Complies with New Zealand Building Standard NZS 4219:2009 – Seismic performance of engineering systems in buildings.

Seismic & Structural Services

We design, supply, and install seismic bracing, isolation systems, and anchoring solutions for racks, containment, cable trays, and all critical

Pipe & Cable Support Systems

In today's environment where seismic requirements are paramount, we back-up our comprehensive product support package, with engineering design criteria to

Seismically Resilient Non-Structural Elements #3: Restraint systems

Electrical cables, conduit and cable trays that cross a structural separation or seismic gap should have sufficient flexibility to accommodate the expected horizontal and vertical movements determined

Low Price Cantilever Brackets for Cable Tray Galvanized Steel ...

Shop high-quality cantilever brackets for cable tray from reliable suppliers. Durable, pre-galvanized HDG channel support systems for secure installation.

Services

This includes bracings for HVAC, cable tray, ductwork pipework and associated equipment and plant. As well as the industry leading product range, Polyplas International is also able to supply a

EARTHQUAKE PROTECTION

Pipe, Cable Trays, Bus Ducts & Conduit Bracing Details Cable Bracing SWIVEL FASTENER (TYP.) SEISMIC TENSION LOAD (REACTION) STIFFENER CLAMP STIFFENER CLAMP HANGER ROD

Seismic Bracing Kit | Seismic Bracing | Wire and Cable Hangers | Wire ...

Kit contains items needed for seismic bracing long cable tray runs. Each kit contains: (4) 11" cables with mounting eyelets (2) Metal brackets for attachment to support members (4) Cable clamp collars (4)

Seismic Supports

Seismic Supports Cable trays are systems used for the safe transportation and protection of electrical cables, designed to fit the pathways within buildings and

Seismic Bracing Ensures Stability and Safety of Cable

Seismic Bracing – Enhancing System Stability and Seismic Resistance Seismic bracing, typically made of high-strength metal, is key component specifically

Engineering Services

This includes bracings for HVAC, cable tray, ductwork pipework and associated equipment and plant. As well as the industry leading product range, Polyplas
