

Epon device registration

Overview

You can register the printer using the Epson Printer Finder from your smartphone. Connect your smartphone to the same network as the printer. Simply select or search for your product and enter the date you purchased along with your email address—that way, we can keep you updated with news and special offers on your product. The screen and panel operations shown in this guide are examples. By submitting my information, I agree that it will be handled in accordance with the Epson Privacy Policy, and I authorize Epson to send. During the ONU registration process to the OLT, the following types of MPCP messages need to be used:

- Authorization (GATE) message
- Detected GATE message: Broadcasted by OLT, used for ONU discovery.
- Standard GATE messages: Sent by the OLT to the ONU in a unicast method for the purpose of. To enable the router to communicate with an upstream optical line terminal (OLT), you must correctly configure attributes of the EPON interface connected to the OLT. Download drivers, access FAQs, manuals, warranty, videos, product registration and more.
