

Explosion-proof distribution box housing manufacturer direct sales

Overview

Durable Hexlon Explosion Proof Distribution Boxes and Electrical Enclosures, IECEx and ATEX certified for Zone 1 and Zone 2.

Key Takeaways

Leading manufacturers like Hexlonex, Flameproof Manufacturing, Atex Delvalle, MAM, and Sureall offer direct sales of certified explosion-proof distribution box housings for hazardous areas. Key Manufacturers and Offerings

Hexlonex provides durable explosion-proof distribution boxes and electrical enclosures certified under IECEx and ATEX for Zone 1 and Zone 2 applications, suitable for industrial and hazardous environments . Flameproof Manufacturing specializes in explosion-proof distribution box components for Zones 1, 2, 21, and 22, offering a range of enclosures and junction boxes designed for flammable gases and dust . Atex Delvalle manufactures custom-made local control stations and distribution boxes in stainless steel (AISI 304L/316L) or GRP, with worldwide certifications ensuring performance in extreme temperatures and outdoor conditions. Their products include motor starters, switches, and grounding devices, all configurable to client specifications . MAM is a global manufacturer of Ex electrical equipment, including control panels, junction boxes, lighting systems, cable glands, and distribution systems. Their products are designed for oil & gas, petrochemical, marine, mining, and pharmaceutical industries, with ATEX and IECEx certifications . Sureall offers a wide range of explosion-proof boxes, including junction boxes, panelboards, receptacles, and enclosures. They use flameproof aluminum alloy, glass-reinforced plastic, or stainless steel housings to confine electrical arcing and prevent ignition in hazardous atmospheres. Their products cover Class 1 Div 1/2, Class 2 Div 1/2, Zone 1/2, Zone 21/22, and various gas and dust groups .

Features to Consider

- Material: Stainless steel (AISI 304/316), aluminum, or GRP for corrosion resistance and durability.
- Certifications: ATEX, IECEx, and local hazardous area compliance.
- Hazard Zones: Zone 1/2 for gases, Zone 21/22 for dust, Class 1/2 Divisions.
- Customization: Many manufacturers offer configurable enclosures with built-in switches, circuit breakers, terminal blocks, and control devices.
- Protection Type: Flameproof (Ex d) or increased safety (Ex e) depending on application requirements.

Direct Sales and Ordering

Most of these manufacturers provide direct sales to industrial clients, EPC contractors, and system integrators, with options for custom-engineered solutions. Contacting them via their websites allows for quotation requests, technical consultation, and specification-based orders. By selecting a certified manufacturer, you ensure safety, compliance, and reliability in hazardous environments while obtaining direct support and customization for your specific industrial needs.
