

## Ghana Project Quotation 1GB SD-WAN Equipment

### Overview

Wide Area Network & SD-WAN | Arrow Network Systems | Ghana Benefit from unprecedented levels of visibility into both legacy and cloud applications and gain.

### Key Takeaways

The cost of 1GB SD-WAN equipment in Ghana varies depending on vendor, service level, and deployment type, but you can obtain competitive quotes through local bidding platforms or global pricing benchmarks. Pricing Overview

SD-WAN equipment pricing is influenced by bandwidth, vendor, and service features. For 1GB SD-WAN, global benchmarks suggest that hardware and software subscriptions can range from \$500 to \$2,000 per device per year, depending on the vendor and included services such as security, management, and support (TeleGeography SD-WAN Pricing Data), . Local pricing in Ghana may be higher due to import duties, shipping, and local service fees.

#### Procurement Options in Ghana

- GhanaBid: A platform where you can post your SD-WAN project, receive bids from verified local contractors, and manage payments securely through an escrow system. You can describe your requirements, set your budget, and compare multiple bids side by side to select the best supplier .

- **Government Tenders:** The Ghana Electronic Procurement System and portals like TENDERS.com.gh provide access to government and public sector procurement opportunities. You can submit a Request for Quotation (RFQ) for SD-WAN equipment or check for pre-existing tenders for similar IT infrastructure .
  - **Framework Agreements:** For public procurement, the Public Procurement Authority (PPA) allows the use of Standard Tender Documents for Framework Agreements. This method can be used to establish a long-term supply arrangement for SD-WAN equipment, ensuring compliance with local regulations and competitive pricing .
- Steps to Obtain a Quotation
- **Define your technical requirements:** 1GB bandwidth, number of sites, security features, and management options.
  - **Choose a procurement channel:** private platform (GhanaBid) or government tender (RFQ via PPA or TENDERS.com.gh).
  - **Publish your project or RFQ:** Include specifications, delivery schedule, and budget range.
  - **Collect and compare bids:** Evaluate suppliers based on price, warranty, support, and delivery time.
  - **Finalize contract:** Use escrow or formal procurement agreements to secure payment and delivery. By combining global pricing benchmarks with local procurement platforms, you can obtain a reliable quotation for 1GB SD-WAN equipment in Ghana while ensuring transparency and competitive pricing.
