

Huawei optical module S1 1 price

Overview

Replacing an Optical Module Context Never look directly into an optical module or the ends of optical fibers.

Key Takeaways

The Huawei SSN2SLO1 (S-1.1, LC) optical module typically ranges from approximately \$400 to \$700 per unit, depending on supplier, order quantity, and shipping terms.

The Huawei SSN2SLO1 (S-1.1, LC) is an 8-port STM-1 155M optical interface board equipped with 8 S-1.1 15 km SFP modules, compatible with Huawei OSN1500, 2500, 3500, and 7500 SDH systems . It performs photoelectric conversion, overhead byte extraction/insertion, and line alarm reporting. The board supports multiple optical interface standards including I-1, S-1.1, L-1.1, L-1.2, and Ve-1.2, with ITU-T G.957 compliance for most interfaces .

Pricing Information

- Typical market range: \$400–\$700 per module, depending on supplier and order volume .
- Sample orders: Some suppliers provide samples for testing, usually with a sample fee and courier charge .
- Bulk orders: Delivery times range from 7 to 25 working days after deposit, with 100% pre-shipment testing to ensure quality .

Purchasing Tips

- Verify compatibility with your Huawei OSN system (1500, 2500, 3500, 7500).

- Check supplier inventory for immediate availability to reduce lead time.
- Request quotations from multiple authorized distributors or resellers to get the best price.
- Confirm warranty and return policies, especially for high-value optical modules.

Conclusion

While the exact price can vary, the Huawei S1.1 optical module is generally available in the \$400-\$700 range per unit. For precise pricing, it is recommended to contact authorized Huawei distributors or suppliers directly, as bulk orders and regional factors can significantly affect the final cost .
