

Items used for threading fiber optic cables

Overview

Fiber Optic Tool Kits The fiber optic installer needs a complete set of fiber optic tools and test equipment, plus supplies used in pulling cables, splicing and terminating them, then testing and troubleshooting the installation. Our fiber optic termination kits, inspection tools, and cleaning supplies allow both lab and field technicians to complete reliable assembly of fiber optic systems. This is a fairly comprehensive list of these items, but no such list. As networks scale to support FTTH rollouts, 5G base stations, and hyperscale data centers, the way fiber is terminated and managed at every endpoint can determine whether a project succeeds or fails. One component that plays a critical role in this process—though often overlooked by those outside. Choose from an array of accessories for your next fiber optic installation. Fibure offers high-quality Aramid yarn and thread.
