

Ivory Coast MTRJ Fiber Optic Patch Cord

Overview

Our 1 meter MTRJ to SC (62.5/125) multimode duplex fiber optic patch cables are ideal for high speed data transmissions.

Key Takeaways

MTRJ fiber optic patch cords are duplex or simplex cables with MT-RJ connectors, available in single mode and multimode, suitable for high-density and LAN applications, and can be shipped to Ivory Coast.

MTRJ (Mechanical Transfer Registered Jack) fiber optic patch cords are compact, duplex connectors that are half the size of SC connectors and designed for high-density applications. They typically consist of two fibers in a single connector, allowing duplex connections, and are available in multimode (50/125 μm , 62.5/125 μm) and single mode (9/125 μm) variants. The connectors use precision molded MT ferrules with guide pins to ensure accurate fiber alignment, providing low insertion loss and reliable signal transmission.

Features

- Connector Types: MTRJ-MTRJ, MTRJ-LC, MTRJ-SC, MTRJ-ST, MTRJ-FC, MTRJ-E2000
- Duplex or Simplex: Most MTRJ cords are duplex for simultaneous transmit and receive signals
- Durability: Injection-molded locking tabs resist pulls, strains, and impacts during installation

- Performance: Low insertion loss (typically $\leq 0.2-0.3$ dB) and high-speed bandwidth support

- Standards Compliance: Telcordia GR-326-CORE, IEC 874-1, RoHS, ISO9001 certified manufacturing

Applications

- Local Area Networks (LAN)
- Telecommunication networks
- Device terminations and premises distribution
- High-density patch panels and data centers

Purchasing and Shipping to Ivory Coast

Several suppliers offer international shipping, including to Ivory Coast:

- Norden Communication: Global supplier of MTRJ-MTRJ patch cords with multiple fiber types and connector options
 - FiberOptic.com.ng: Offers single mode and multimode MTRJ patch cords with worldwide delivery and ISO certification
 - LongXing: Provides fully tested patch cords with customizable options and international shipping When ordering, you can specify fiber type, length, jacket type (riser or plenum), and connector configuration to match your network requirements.
- #### Summary

MTRJ fiber optic patch cords are compact, reliable, and high-performance cables suitable for duplex connections in LAN and telecom setups. They are available in single mode and multimode, with low insertion loss and durable connectors. Suppliers like Norden, FiberOptic.com.ng, and LongXing can ship these cords to Ivory Coast, making them accessible for local installations .
