

Mexico 576-core fiber optic patch panel

Various specifications optional

Overview

576 cores LC, front and rear insertion, Sliding tray • 12-fiber or 24-fiber MTP/MPO-LC, and MTP/MPO-MYP/MPO modules • Up to 144 cores per U with MTP/MPO-LC connectors • Front and rear insertion for modules High-density, 4U, Max. It is an ideal solution under the background of the increasing demand for high-capacity distribution of data center. Hardware Kit contains: Screws (12-24); Screws (10-32); 8 Velcro cable tie; Tie Wraps. Avoid installing components that protrude forward from. FOCC 2U High-Density Patch Panel supports up to 288 LC or 576 MDC fibers per 2U rack space. Lightweight anodized aluminum construction, modular cassette design, and front access make it ideal for data centers, SAN, FTTx, and high-speed cloud infrastructure. Maximize your fiber density with the 2U. OPT-X™ HDX Flat Panel offers a high-density inter-connect or cross-connect between backbone horizontal cable and active equipment while minimizing rack space in a frame or cabinet. This panel is ideal for deployment. Supplier highlights: This supplier mainly exports to the United States, Netherlands, and Australia, offering quality control, full customization, and sample customization services with a positive review rate of 100.
