

Middle East surface-mounted electrical box

Overview

Electrical Enclosures Built for the Middle East | VililongOur wall-mounted electrical enclosures are engineered for durability, security, and ease of insta.

Key Takeaways

Surface-mounted electrical boxes in the Middle East are widely available in various sizes, IP ratings, and materials, suitable for indoor and outdoor applications, with leading suppliers including Schneider Electric, Al Shurooq, Al Amazon, and HI-TECH.Product Overview

Mureva Surface-Mounted Boxes by Schneider Electric are a popular choice in the region, offering a wide range of boxes for both indoor and outdoor use. They cover IP ratings from IP20 to IP67, ensuring protection against dust, water, and harsh environmental conditions. These boxes are halogen-free, stable, and easy to install, with multiple termination options such as floating terminals, screw terminals, and push-in terminals. They also feature versatile entry types including grommets, knock-outs, and smooth sides, and can be fixed using central holes, oblong holes, or chimneys outside the IP zone . Industrial Electrical Steel Boxes by HI-TECH provide a robust steel construction suitable for walls and ceilings. They feature multiple knockouts for flexible conduit connections, support multi-conductor runs, and are designed for quick and efficient mounting. These boxes are ideal for lighting fixtures, switches, receptacles, and other electrical applications .

Materials and Durability

Surface-mounted boxes in the Middle East are typically made from steel, stainless steel, or aluminum, offering resistance to fire, corrosion, pests, and extreme temperatures. Schneider Electric's Mureva boxes are eco-designed and comply with environmental standards, while HI-TECH steel boxes are tested to meet high electrical reliability standards. Al Shurooq and Al Amazon also manufacture customizable metal enclosures using advanced CNC machinery and powder coating for durability in hot or wet climates.

Installation and Compatibility

These boxes are designed for easy installation, with options for clipping-in covers, quarter-turn screws, or standard screws. They are compatible with conduits and accessories from the same product ranges, allowing integration with modular and floor-standing enclosures, wiring devices, and flush-mounted boxes. This ensures flexibility for both residential and industrial setups.

Regional Suppliers

- Schneider Electric UAE & Saudi Arabia: Offers Mureva surface-mounted boxes with extensive customization options and IP ratings suitable for harsh environments.
- Al Shurooq (Dubai, UAE): Specializes in steel and aluminum enclosures, including bespoke solutions for control panels and distribution boards.
- Al Amazon Industries (Sharjah, UAE): Manufactures standard and extendable enclosures according to regional standards (ADDC, DEWA, SEWA, FEWA) with powder-coated finishes.
- HI-TECH (Saudi Arabia): Provides heavy-duty steel boxes for industrial applications with flexible mounting and multi-conductor support.

Key Considerations

When selecting a surface-mounted electrical box in the Middle East, consider:

- IP rating for environmental protection (IP20–IP67)
 - Material (steel, stainless steel, aluminum) for durability
 - Installation type (wall, ceiling, or modular integration)
 - Compatibility with conduits and accessories
 - Compliance with local standards and regulations
- These options ensure reliable performance in industrial, commercial, and residential applications across the Middle East.
