

Multimode fiber optic patch cord MPO

Overview

Multimode 12 fiber patchcord with very low insertion loss for direct connection of optical modules such as SR4 40G/100G. Recommended for high-density data center applications. Built with a low-loss MT ferrule, LSZH jacket, and bend-insensitive OM3 fiber core - this is the OM3 MPO cable that keeps your 40G and 100G links clean, fast, and reliable. High-density data center cabling has one golden rule: every. Traditional single-fiber patch cords and connectors, while reliable, no longer meet the physical density and speed requirements of modern networks. Enter the MPO fiber patch cord. MPO (Multi-Fiber Push-On) patch cords are multi-fiber connectors that bring together 8, 12, 16, 24, or even more fibers.
