

Outdoor distribution box cover fixing bracket

Overview

Mounting brackets include connecting brackets that are assembled at the time of construction, metallic belts that attach to a pre-existing hardware pole, etc. Brackets are made of steel material that can sufficiently bear the weight of power distribution boards and other. Polycase offers both universal use kits for non-Polycase products and specific pole mounting kits designed for the Polycase AN, HN, HP, ML, SA, SB, WH, WQ, ZH and ZQ Series pole-mount enclosures. The adjustable stainless-steel bands are corrosion-resistant for outdoor use and allow for mounting on. When it comes to rigid, easy to install electrical box supports, Eaton offers a wide variety of B-Lines series electrical boxes that help reduce installation complexity. They are available in different shapes depending on where they are mounted and the objects they hold. With this structure, we can install the components of irregular heights easier and faster.
