

Price of Optical Cable Fusion Splicing Equipment

Overview

Fusion splicer is a precision instrument used to join two optical fibers end-to-end using heat, typically achieving very low splice loss.

Key Takeaways

Optical cable fusion splicers typically range from \$1,000 to over \$10,000 depending on type, features, and performance.

- Entry-Level / Cladding Alignment Splicers: \$1,000–\$3,000. These are budget-friendly models suitable for short-distance access networks or teams with limited budgets, aligning fibers based on cladding rather than cores, which may result in slightly higher splice loss .
- Core Alignment Splicers: \$4,000–\$10,000+. High-precision splicers that align fiber cores for ultra-low splice loss (
