

Price of drilling holes for installing a distribution box

Overview

Typical project ranges for a single distribution box install span from \$500 to \$3,000, with most residential jobs landing around \$1,000 to \$1,800. Costs vary based on the materials used, local labor rates, and permitting fees in your area. Labor makes up the largest portion of the cost to replace a septic distribution box, running as high as \$1,200 for. Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings. The distribution box cost encompasses not only the initial purchase. The Suggested Retail price column, also referred to in the industry as the third column, end column or best column are the manufactures' most current published prices.
