

Recommended Dust Spectrometer for Lebanon

Overview

Providing innovative solutions in the fields of analytical, molecular and forensics for over 30 years.

Key Takeaways

For accurate dust and particulate monitoring in Lebanon, GRIMM aerosol spectrometers, Heubach Dustmeters, and Palas Fidas 200 are highly recommended. GRIMM Aerosol Spectrometers

GRIMM offers a range of high-precision aerosol and dust spectrometers suitable for environmental and industrial applications. Models like the GRIMM 5410, 5412, and 5416 provide single particle counting, high detection efficiency ($D_{50} = 4 \text{ nm}$), and fast response times ($t_{10}-t_{90} < 3 \text{ s}$). These instruments can measure a wide particle size range, from nanoparticles to larger dust particles, and are suitable for both laboratory and field use in Lebanon .

Heubach Dustmeters

The Heubach Dustmeter is designed for bulk material dustiness testing and regulatory compliance. It simulates handling scenarios such as filling, transport, and mixing, and can classify dust by respirable and thoracic fractions. The Type I AE version allows particle size-selective measurements, making it ideal for occupational safety and industrial monitoring .

Palas Fidas 200

The Fidas 200 fine dust monitor uses optical light scattering to measure PM2.5, PM10, and other mass fractions. It is suitable for outdoor and air-conditioned monitoring stations, with weatherproof housing options and a Sigma-2 sampling head for representative sampling even in strong winds. The system supports remote control, data access, and calibration verification, making it a robust choice for environmental monitoring in Lebanon .

AMETEK Land Dust Monitors

For continuous emissions monitoring, AMETEK Land offers models like the 4500 MkIII, 4650-PM, and 4750-PM, which use forward- or back-scatter laser technology. These are particularly suitable for combustion processes and industrial compliance monitoring, though availability in Lebanon may require direct import .

Recommendation Summary

- For environmental air quality monitoring: Palas Fidas 200 or GRIMM 5412/5416
- For industrial dust and occupational safety: Heubach Dustmeter Type I AE
- For combustion or process monitoring: AMETEK Land 4650-PM or 4750-PM When selecting a spectrometer, consider particle size range, portability, measurement method, and local supplier support. GRIMM and Palas instruments are widely used in research and environmental monitoring, while Heubach is specialized for industrial dustiness testing.

8 Best Spectrometers (August 2026) Expert Reviews

Discover the best spectrometers with our 2026 guide. We tested 8 models across photography, education, and lab

Unitech International

Whether in the pharmaceutical, academic, chemical or food industries, this single quadrupole mass spectrometer adds credibility, not

Environmental Equipment Supplied In Lebanon

The Indoor Wide Range Aerosol Spectrometer combines two technologies for particle counting and classifying: a Scanning Mobility

Unitech International

Providing innovative solutions in the fields of analytical, molecular and forensics for over 30 years. The Agilent 8890 GC System is

Dust Analysis – Accredited Test Labs

Accredited Test Labs for Inspection, Lab Testing and Calibration services for Middle East, Far East, Subcontinent, America, Africa

DUSTHUNTER SP100 dust measuring for low to medium

The DUSTHUNTER SP100 is a highly accurate dust monitor designed for low to medium dust concentrations. Using forward light

Spectrophotometer In Lebanon | Spectrophotometer Manufacturers

We stand amidst the trusted Spectrophotometer manufacturers in Lebanon, ensuring precision, durability, and performance. Our

QualiltyLAB | Lebanon

Qualitylab technical service center offers a range of laboratory testing and expert advisory services.

Components and accessories, spectrometer and mass spectrometer ...

Components and accessories, spectrometer and mass spectrometer Companies in Lebanon | Find Components and accessories,

QualiltyLAB | Lebanon

Easy to use, powerful, compact and robust: the Spectrum Two [™] spectrometer is suitable for all daily

Aerosol and Dust Monitors

Aerosol monitors, commonly referred to as dust monitors, particulate monitors, light scattering laser

Dust Monitors | Opacity Meters | LAND

AMETEK Land brings the most advanced range of opacity, dust & particulates monitors that use patented technology to deliver

Buy COLIJOL UV-Vis Spectrophotometer Scanning Type Spectrometer

Shop COLIJOL UV-Vis Spectrophotometer Scanning Type Spectrometer Light Meter Laboratory 7230G Spectrometer Analyzer with

Global map of characterized dust sources using multisource remote ...
