

Single-mode two-core G657A drop fiber optic cable

Overview

Product Description: With metal strength member, flame-retardant LSZH jacket and special Low-bend-sensitivity fiber, suitable for direct aerial installation into the houses in FTTH projects. Self-supporting FTTH drop cable is constructed with one or two single-mode fiber (G. The cable is. In the event your product doesn't work as expected or you need help using it, Amazon offers free product support options such as live phone/chat with an Amazon associate, manufacturer contact information, step-by-step troubleshooting guides, and help videos. These FTTH drop cables are specifically engineered for fiber-to-the-home last mile solutions, offering small diameter, lightweight. FTTH fiber optic cable is Fiber to Home, which used for linking the equipment and components in the fiber optic network. The fibers is between two parallel KFRP/ FRP / steel wire., Limited is used externally on buildings or for residential applications.
