

Sky Children of the Light Disconnection Teleportation Tutorial

Overview

This page contains a number of Video Guides, tutorials, trips and tricks to help players navigate through the world of Sky.

Key Takeaways

Deanporting allows players to teleport themselves or friends anywhere in the game using a glitch involving table placement and booster props. What is Deanporting?

Deanporting, also called Dislocation Warp, is a glitch in Sky: Children of the Light that lets players teleport to out-of-bounds (OOB) areas or move friends across the map. It is more powerful than older glitches like shared memory wrongwarping and relies on precise table placement and booster props to control distance and direction of teleportation .

How to Perform Deanporting

- Setup: You need a table and a friend to warp. The table acts as the teleportation anchor.
- Warping: Your friend warps you from the table. The distance they warp you determines how far you will teleport.
- Booster Props: Using props can multiply the teleportation distance. Some props double the distance, while others can increase it by more than 20 times .

- Orientation: The table's rotation affects the direction of teleportation. Rotating the table can send your friend upwards, downwards, or in the opposite direction depending on placement.

- Freezing: Do not freeze the game too soon. Ensure the warp is complete before freezing to avoid errors.

- Server Synchronization: If teleporting to a friend, return to home quickly and use the return shrine within 30 seconds to join the same server .

Tips for Effective Teleportation

- Practice Geometry: Think of the table as the center of a sphere with your friend on the surface. Adjust placement to control final position.

- Multiple Friends: Teleporting multiple friends is easier if you warp non-frozen friends first.

- Avoid Movement: After warping, do not move until the teleportation is complete to prevent glitches .

- Video Guides: Watching tutorials like the SkyOOB YouTube videos can clarify the process visually .

Additional Resources

- SkyOOB Discord: Join for community tips and advanced glitch discussions.

- Sky Video Guides Wiki: Offers general gameplay, seasonal guides, and teleportation tricks .

- Official Travel Mechanics: Standard portals in Home space allow normal teleportation between unlocked zones . By following these steps and practicing table placement and booster prop usage, Deanporting can become a reliable method to explore OOB areas or quickly move across the game world.
