

Sri Lankan suppliers SFP optical network switch

Overview

Buy sfp switch Online at Best Price in Srilanka Srilanka - Shop for Best Online at Daraz.lk Wide Variety of sfp switch. Great Prices, Even Better Service.

Key Takeaways

Sri Lankan suppliers such as Xelivor Optics, Networkstore.lk, and MokerLink offer a wide range of SFP, SFP+, and 10G optical network switches compatible with major brands like Cisco, Huawei, Juniper, and Arista. Local Suppliers and Offerings

Xelivor Optics provides high-performance SFP, SFP+, and QSFP28 transceivers suitable for data centers, carrier networks, and enterprise switches across Colombo, Galle, and Jaffna. Their modules support distances from 100m to 40km, with simplex LC connectors and Digital Diagnostics Monitoring (DDM) for real-time telemetry, ensuring reliable high-speed connectivity for FTTH, LTE, and 5G-ready networks . Networkstore.lk offers a variety of SFP transceivers and compatible switches, including 1G and 10G modules. Their 1G SFP transceivers include SX (short-range, up to 550m), LX (long-range, up to 10km), and TX (copper RJ45, up to 100m), fully compatible with Cisco, Huawei, Juniper, Arista, HPE Aruba, and other major brands . They also provide Layer 2 and Layer 3 managed switches, PoE options, and industrial-grade switches suitable for enterprise and outdoor deployments . MokerLink supplies 8-port 10Gbps unmanaged SFP+ switches with auto-adaptive 1G/10G optical fiber modules, 160Gbps non-blocking bandwidth, and plug-and-play setup. These switches are fanless, metal-cased, and support full-duplex MDI/MDIX auto-negotiation, making them ideal for high-speed, long-distance fiber transmission in offices, data centers, and WiFi6 AP networks .

Key Features to Consider

- **Compatibility:** Ensure SFP modules match your switch brand and port type (SFP, SFP+, QSFP28).
- **Distance & Fiber Type:** Multi-mode (MMF) for short distances, single-mode (SMF) for long distances up to 40km.
- **Speed:** 1G, 10G, or higher depending on network requirements.
- **Management:** Managed switches offer VLAN, QoS, and monitoring; unmanaged switches are simpler and plug-and-play.
- **Environmental Requirements:** Industrial or waterproof switches for outdoor or harsh environments.

Conclusion

For reliable SFP optical network solutions in Sri Lanka, Xelivor Optics, Networkstore.lk, and MokerLink provide a comprehensive range of compatible switches and transceivers. They support major networking brands, offer various port speeds and distances, and cater to both enterprise and industrial deployments, ensuring seamless integration with existing infrastructure.
