

Stainless Steel Mesh Cable Tray Unit Price

Overview

Wire Mesh Trays | McMaster-Carr Choose from our selection of wire mesh trays, including over 475 products in a wide range of styles and sizes. Same and Next.

Key Takeaways

The unit price of stainless steel mesh cable trays typically ranges from \$20 to \$150 per meter or section, depending on size, material grade, and customization options.

Price Factors

Material Grade: Stainless steel trays are commonly made from 304 or 316 stainless steel, with 316 offering higher corrosion resistance and slightly higher cost .

Dimensions: Tray width, height, and wire diameter significantly affect pricing. Standard widths range from 200 mm to 500 mm, heights from 50 mm to 200 mm, and wire diameters from 3.5 mm to 6 mm . Larger or thicker trays cost more due to increased material usage.

Length and Customization: Standard lengths vary from 300 mm to 3000 mm, and custom sizes or bends (curves, tees, slopes) can increase the unit price .

Supplier and Bulk Orders: Prices differ between suppliers. For example, Alibaba listings show competitive factory prices for bulk orders, while Amazon or local distributors may charge higher per-unit prices for smaller quantities .

Additional Features: Optional covers, brackets, or specialized finishes (polished, powder-coated) can also affect cost .

Typical Price Range

- Small, standard trays (200–300 mm width, 50–100 mm height): \$20–\$50 per meter or section .
- Medium trays (300–400 mm width, 100–150 mm height): \$50–\$100 per meter or section .
- Large or heavy-duty trays (400–500 mm width, 150–200 mm height, 316 stainless steel): \$100–\$150 per meter or section .

Summary

Stainless steel mesh cable trays offer durability, corrosion resistance, and flexibility for indoor and outdoor installations. Pricing depends on material grade, dimensions, length, customization, and supplier, with typical unit costs ranging from \$20 to \$150 per meter or section. For precise quotes, contacting suppliers with your specific tray dimensions and requirements is recommended .
