

Standards for pigtail reels

Overview

The IEC has recently published an updated version of IEC 60286-3, Packaging of components for automatic handling – Part 3: Packaging of surface mount components on continuous tapes which provides the specifications for the tape and reel to fit the requirements of the automatic. The IEC has recently published an updated version of IEC 60286-3, Packaging of components for automatic handling – Part 3: Packaging of surface mount components on continuous tapes which provides the specifications for the tape and reel to fit the requirements of the automatic. Conductors are packaged on the appropriate standard reel (or alternate) in standard lengths (subject to manufacturing tolerances) as specified on product data and price sheets. Packages for aluminum products comply with proposed packaging of Aluminum Association standard. We exclusively design system solutions for each kind of application! Please find attached reel dimensions according DIN standard for your kind attention. Surely we are pleased to offer special customized dimensions. Don't hesitate to contact us directly or consult one of our worldwide operating. Electronic devices are comprised of components that can be made anywhere in the world. It provides protection and makes precision surface-mounting of components easy.
