

Xunwu Trough-type Cable Tray Price

Overview

Price List Cable Tray 2024 - Free download as PDF File (.pdf), Text File (.txt) or view presentation slides online.

Key Takeaways

The price of Xunwu trough-type cable trays varies widely depending on material, size, load capacity, and customization, typically ranging from \$20 to \$150 per meter for standard industrial models.

- **Pricing Factors**
 - **Material:** Steel trays are generally the most cost-effective, while aluminum and fiberglass reinforced plastic (FRP) trays are more expensive due to corrosion resistance and lightweight properties .
 - **Finish and Protection:** Hot-dip galvanizing or powder coating increases durability and price, especially for outdoor or corrosive environments .
 - **Size and Load Capacity:** Wider trays or those designed to carry heavier cable loads cost more. Fully enclosed trough designs are pricier than open or U-shaped trays .
 - **Customization:** OEM or factory-direct options tailored to specific dimensions, junctions, or covers can increase cost but may offer volume discounts .
 - **Quantity:** Bulk purchases often reduce the per-meter price, making wholesale orders more economical .
- Typical Price Ranges**
- Standard steel trough trays: \$20-\$50 per meter
 - Aluminum or FRP trays: \$50-\$100 per meter

- Fully enclosed or high-load trays: \$80-\$150 per meter

Sourcing Tips

- Contact verified Chinese suppliers or distributors for factory-direct quotes to get competitive pricing .
- Consider volume discounts and check if the supplier offers customized solutions for your installation requirements .
- Ensure the tray meets environmental and load specifications to avoid additional costs from replacements or maintenance . For the most accurate and up-to-date pricing, it is recommended to request a quote directly from Xunwu suppliers or authorized distributors, providing specifications such as material, dimensions, and quantity.
